NCMA CODE of ETHICS:

Each member of the National Contract Management Association accepts the obligation to uphold the purposes of the organization as set forth in the NCMA Bylaws, to strive for the increase of knowledge in job performance in the field of contract management, and to abide by the letter and spirit of the ethical standards of the Association.

As prescribed in Article XIX of the Bylaws, this Code of Ethics establishes for the member a foundation of professional conduct. However, ethical conduct may require more than merely abiding by the letter of the Code. It is therefore incumbent upon each member of the Association to make a commitment to honorable behavior in all aspects of work and professional activity.
